How To Care For Outer Banks Shirts

Follow the care label instructions exactly, unless you must pretreat for a specific stain. Stains should be pretreated immediately and the washed as soon as possible. Always pretest stain removers and bleaches on a hidden part of the garment before using.

To minimize wear on the outside of your shirt and to prevent color loss, turn shirt inside out before washing and drying. When machine drying, be careful not to over dry. Over drying can cause wrinkling, puckering, harshness and excessive shrinkage. Prevent over drying by tumble-drying only to damp stage and hang on clothes hanger for final air-drying. When line drying, put bright colors in the shade, away from direct sunlight.

Our Stock

Please refer to the next pages for our inventory of Outer Banks Product. Please note: because the product has been in high demand, we may not have all of the sizes and colors in stock. This is not updated in real-time; please consult with a Golf Apparel Brands Associate prior to placing an order to verify our most current inventories.

Thank you and enjoy!
